## Program Descriptions:

---

### **RICOH PS2PDF (5876-W04)**

PS2PDF allows you to transform PostScript V3 files into text searchable Adobe® Acrobat Portable Document Format (PDF) files. It is invoked via a command line interface and runs on Windows and AIX.

### **RICOH PCL2PDF (5876-W05)**

PCL2PDF allows you to transform PCL files into text searchable Adobe Acrobat Portable Document Format (PDF) files. It is invoked via a command line interface and runs on Windows and AIX.

### **RICOH AFP2PDF Plus (5876-W11)**

The AFP2PDF Plus Transform converts Advanced Function Presentation (AFP) documents into Adobe Acrobat Portable Document Format (PDF) documents. The AFP2PDF Plus Transform lets you:

- Operate on any system that supports JAVA Version 1.6 or later.
- Integrate multiple servers with little or no client workstation modification. The AFP2PDF Plus transform runs on your Web server or other back-end application server.
- View documents with the same fidelity as if they were printed. If the Adobe Acrobat plug-in is installed with a Web browser, you can view and print these documents within the browser application.
- Use configuration files to customize how AFP documents are transformed.
- Fully integrate with the IBM Content Manager OnDemand (CMOD) Web Enablement Kit and IBM Content Navigator.

The AFP2PDF Plus Transform gives you these added benefits:

- Client / Server implementation
- Greatly improved transformation speed over AFP2PDF (5876-W01).
- Larger than 2 GB input and output file support.
- Supports IBM Content Manager OnDemand (CMOD) Page Piece Dictionary Indexing.
- Reduce costs associated with printing and mailing by delivering documents electronically.
- Quickly retrieve your information within multi-page documents using Adobe Acrobat search and navigation features.
- Print AFP2PDF Plus Transform documents on any local printer using the print function in Adobe Acrobat.
- Increase control over your information with an added layer of security and encryption. Define an owner password to control modification, copying and printing; define an end-user password to control document access; and add a digital signature to provide more security.

### **RICOH Line2PDF Plus (5876-W12)**

The Line2PDF Plus Transform converts simple line data documents into Adobe Acrobat Portable Document Format (PDF) files.

The Line2PDF Plus transform lets you:

- Operate on any system that supports JAVA Version 1.6 or later.
- Integrate multiple servers with little or no client workstation modification. The Line2PDF Plus transform runs on your Web server or other back-end application server.
- View documents with the same fidelity as if they were printed. If the Adobe Acrobat plug-in is installed with a Web browser, you can view and print these documents within the browser application.
- Fully integrate with the IBM Content Manager OnDemand (CMOD) Web Enablement Kit and IBM Content Navigator.

The Line2PDF Plus Transform gives you these added benefits:

- Client / Server implementation
- Greatly improved transformation speed over Line2PDF (5876-W02).
- Larger than 2 GB input and output file support.
- Reduce costs associated with printing and mailing by delivering documents electronically.
- Quickly retrieve your information within multi-page documents using Adobe Acrobat search and navigation features.
- Print Line2PDF Plus Transform documents on any local printer using the print function in Adobe Acrobat.

### **RICOH TIFF2PDF Plus (5876-W14)**

TIFF2PDF converts both single and multi-page TIFF files in Adobe Acrobat Portable Document Format (PDF) files.

### **RICOH AFP Merge (5876-W08)**

AFP Merge combines multiple AFP input files into a single AFP output file with a combined resource group suitable for printing. It contains sophisticated resource comparison capability that allows it to determine when resources are identical. All AFP

resources are renamed and only one version of the resource is added to the AFP resource group. The appropriate AFP file resource references are also changed.

### **RICOH AFP Visual Environment (5876-W13)**

The AFP Visual Environment is a powerful JAVA based tool that allows you to manipulate and modify Advanced Function Presentation (AFP) documents. It consists of:

- AFP Visual Indexer, which allows you to define and insert Tagged Logical Element (TLE) values
- AFP Visual Editor, which gives you the ability to insert text into the AFP document, along with masking sensitive data.
- AFP Pipeline Manager, which allows to run JAVA based AFP “filter” programs to manipulate the AFP to fix a variety of data stream problems or enhance it with additional information.

The Web Enablement Solutions Suite is available in English.

## Customer Responsibilities

---

The customer is responsible for installing, configuring, maintaining and using these products according to documented procedures, and for using the product in accordance with the Ricoh Software License Agreement, which can be found at this Web link:

<http://info.rpp.ricoh-usa.com/help/index.jsp?topic=%2Fcom.infoprint.software.license%2Flicenseshome.html>

## Terms and Conditions

---

The information provided in this announcement letter is for reference and convenience purposes only. The terms and conditions that govern any transaction with Ricoh are contained in the applicable contract documents, such as the Ricoh Software License Agreement and the Ricoh Software Maintenance Agreement for Production Printing Software.

## Licensing

---

The Ricoh Software License Agreement governs your use of the program. These programs have a One-time-charge (OTC) for use of the program, and an annual or multi-year renewable charge for ongoing support, which includes telephone assistance, as well as access to updates and new releases of the program as long as support is in effect.

## Software Support

---

The method to request support for these software products has changed. Software support requests should no longer be sent to the [afp2web@ricoh-usa.com](mailto:afp2web@ricoh-usa.com) email address. Customers can contact Ricoh support 24/7 through standard Ricoh software support services in their country. Customers should contact their local Ricoh sales representative to get the support number for their country.

## Maintenance Service Offerings

---

These products are covered by the Ricoh Software Maintenance Agreement for Production Printing Software.

This agreement applies for subscription and support (also referred to as software maintenance) when purchased with the software product or as a subsequent renewal of software maintenance. The software maintenance agreement does not require customer signatures.

While your software maintenance is in effect, RICOH provides assistance for routine, short-duration installation and usage (how to) questions and code-related questions. RICOH provides telephone assistance, and if available, electronic access, only to your Information Systems (IS) technical support personnel during normal business hours (published prime shift hours) of the RICOH support center. This assistance is not available to end users. RICOH provides Severity 1 assistance 24 hours a day, every day of the year. For additional details, consult the Ricoh website at:

<http://rpp.ricoh-usa.com>

Software maintenance does not include assistance for the design and development of applications, your use of programs in other than their specified supported operating environment, or failures caused by products for which RICOH is not responsible under this agreement.

## Marketing channels

---

Ricoh Sales Specialists

## Warranty Period

---

The program is warranted for 90 days as stated in the Ricoh Software License Agreement.

## Accessibility by people with disabilities
