**SYMPTOM/DESCRIPTION – 4.2.1 Release**

**CAUSE – New product release**

**SOLUTION/DETAILS**

The 4.2.1 release is a follow on to the 4.2.0 (English only) release from May 2017.

This release includes the following function, as well as translations for French, Italian, German, Spanish and Dutch. Since the Print Manager product is no longer marketed, Production Manager 4.2.x is offered as a lower cost base product, and includes available options introduced in 4.2.0:

<i>Base Product</i>	<i>Available</i>
Supports existing Print Manager base product, same prices as current Print Manager	Enhanced Workflow Option Includes basic Preflight, tra current Production Manage
five printer limitation	Advanced PitStop Option Includes use of multiple Pit: Lists
No Preflight or Postscript/PCL tr:	Advanced Imposition Optio Based on Ultimate Impostri advanced imposition, barcc sheets
Retains all other features of Production Manager including full reports and phase configurations.
