Classification:	☐ Troubleshooting ☐ Mechanical ☐ Paper path ☐ Product Safety	☐ Part information ☐ Electrical ☐ Transmit/receive ☒ Other (Release/Patch)	☐ Action required ☐ Service manual revision ☐ Retrofit information ☐ Tier 2

SYMPTOM/DESCRIPTION – 4.3.0 Release

CAUSE – New product release

SOLUTION/DETAILS

The 4.3.0 release is a new release and a follow on to the 4.2.0, 4.1.0 and 4.1.1 releases from the summer/fall of 2017. Available options remain the same for 4.3.0 as for the 4.2.0 release.

Base Product	*Available Options*
Supports existing Print and Production Manager licenses as new base product.	Enhanced Workflow Option Includes basic Preflight, transforms – This is the current Production Manager configuration
Current Production Manager configuration but with five printer limitation, with exceptions below.	Advanced PitStop Option Includes use of multiple PitStop Profiles plus Action Lists
No Preflight or Postscript/PCL transforms	Advanced Imposition Option Based on Ultimate Impostrip technology, provides very advanced imposition, barcodes, marks and banner sheets
Retains all other features of Production Manager including full reports and phase configurations.	

Model:	Date: 05/31/2018	No.: PRODM4.3.0
• TotalFlow Production Manager D3E866 (RAC) • TotalFlow Production Manager D3E867 (RE)		

Key features and benefits are:

Feature	Benefit
Greatly improved installation process	**Installation is now much faster, taking less time from other operations, while providing a more robust experience for the installer.**
New user interface part 2, including MarcomCentral integration support	**Production Manager is now easier to understand and easier to navigate. Also, the new MarcomCentral connection support provides new automation opportunities for the shop operator**
PitStop Pre-flight	**Very powerful pre-flight and color management tool now included on new sales**.
New reporting data and configuration options	**By providing color and b/w page counting, plus sheet usage per job, the shop operator has more information for control of inventory and costing.**
