Customer Reference Document: InfoPrint Font Collection V3.7 (5639-AFP)

Overview

RICOH InfoPrint Font Collection can help you

- Maintain consistency with legacy AFP applications by providing these font sets:
    - AFP Raster fonts in 240 and 300 dots per inch and commonly used AFP typefaces
    - AFP Outline fonts in commonly used AFP typefaces
    - AFP Classic fonts provided in the TrueType/OpenType format
    - AFP Asian Classic fonts provided in the TrueType/OpenType format
    - Begin to use industry standard TrueType/OpenType font technology with a starter set of fonts including
        - WorldType Sans
        - WorldType Sans Duo
        - WorldType Serif
        - WorldType Serif Duo
    - Easily globalize applications for printing in multiple languages with a single font using Unicode data format and the WorldType fonts
    - Migrate to the new IS/3 AFP architecture by utilizing the AFP Classics and Asian Classics TrueType/OpenType font set

Highlights

- Control the appearance of business communications
- Enhance readability of business documents to increase impact and accessibility
- Draw attention to specific items, create emphasis, and improve readers' responsiveness to business communications
- Apply industry-standard TrueType/OpenType font technology to support Unicode data for globalization of applications with a single font
- Improve print quality on high-resolution printers by using Advanced Function Presentation (AFP) or TrueType/OpenType outline fonts instead of raster fonts
- Provides a migration path to the new AFP IS/3 architecture.

Enhancements in V3.7

Ricoh announces an update to the WorldType fonts for the InfoPrint Font Collection (5639-AFP).

The new Japanese Era name character will be added to 40 of the Asian WorldType fonts. The new Era Name character's Unicode value will be U+32FF.

Item Numbers

There are no new orderable items in this release.

Software Requirements

Operating Environments:

AIX®, Windows®, or Linux®

InfoPrint Font Collection can be installed and used on any AIX®, Windows®, or Linux® system platform supported by current releases of InfoPrint Manager and RICOH ProcessDirector. It can also be installed on ASCII systems used for document composition, where the InfoPrint Font character set metrics are needed for document formatting.

Terms and Conditions

RICOH InfoPrint Font Collection is offered by Ricoh USA, Inc. in the United States and by one or more of its affiliates in selected countries outside of the United States, collectively ("Ricoh").

The information provided in this announcement letter is for reference and convenience purposes only. The terms and conditions that govern any transaction with Ricoh are contained in the applicable contract documents, such as, but not

limited to, the Ricoh Software License Agreement (RSLA) and the Ricoh Software Maintenance Agreement for Production Printing Software.

Licensing:

The RSLA governs your use of the program. Your invoice serves as your License Confirmation as defined in the RSLA. These programs have a One-time-charge (OTC) for use of the program, and an annual (or multi-year if available) renewable charge for ongoing support, which includes telephone assistance, as well as access to updates and new releases of the program if you have a current software maintenance agreement in effect.

Maintenance Service Offerings

Ricoh includes one year of software maintenance with the initial license acquisition of each program acquired under the terms of Ricoh Software Maintenance Agreement for Production Printing Software, which does not require customer signatures.

While covered under the terms of the software maintenance agreement, Ricoh provides assistance for your routine, short-duration installation, and usage (how to) questions, as well as code defect support and access to Product Updates, releases, and versions of the program.

Ricoh provides assistance via telephone and, if available, electronic access, only to your Information Systems (IS) technical support personnel during normal business hours (published prime shift hours) of your Ricoh support center. This assistance is not available to your end users. Ricoh provides Severity 1 assistance 24 hours a day, every day of the year.

Software maintenance does not include assistance for the design and development of applications, program modifications, print data-streams, your use of programs in other than their specified supported operating environment, or failures caused by products for which Ricoh is not responsible under this agreement.

Limited Warranty

RICOH Web Enablement Solutions Suite programs are warranted as stated in the Ricoh Software License Agreement.

Marketing channels

Ricoh Sales Specialists

Warranty Period

The program is warranted for 90 days as stated in the Ricoh Software License Agreement.

Accessibility by people with disabilities

A U.S. Section 508 Voluntary Product Accessibility Template (VPAT) containing details on the product accessibility compliance can be requested via this Web site:

Accessibility or
