
InfoPrint ProcessDirector for Windows V2.1

Reference number: AMD #SW1402-5f Final

Brief Summary

An extensible, configurable output process management system that lets you start small and grow over time, InfoPrint ProcessDirector is modular software that can help you control and manage your transaction output processes. With core capabilities plus optional add-on features, InfoPrint ProcessDirector software enables flexible control of your print and mail production processes. It can streamline operations, improve process integrity, enhance operator productivity, reduce errors and help lower costs. InfoPrint ProcessDirector is also the backbone software of InfoPrint Automated Document Factory solutions: Mailroom Integrity, Postal Optimization and Output Management.

Highlights

- Automates print management with scalable workflow control functions
- Provides a database-driven process engine with an extensible backbone for process management
- Includes an embedded IBM® DB2® database, Print Services Facility™ (PSF) print driver and a built in AFP™ and PDF viewer
- Enables you to manage document reprints from within your print center, with precision
- Lets you start small and grow as your requirements change

Description

InfoPrint Solutions Company, a Ricoh® company, announces the release of InfoPrint ProcessDirector V2.1 for Windows. With this new version, we continue our expansion of the capabilities of the InfoPrint ProcessDirector backbone workflow software, extending the functionality to Microsoft® Windows platforms. Packaged along with modular features including vendor-neutral inserter management, InfoPrint ProcessDirector is the premier modular, browser-based, workflow software for job and document management and control.

The base functions of InfoPrint ProcessDirector include the ability to:

- Receive files from IBM z/OS® using Download for z/OS or AFP Download Plus, by copying files to a directory defined as a hot folder, or from a command line print request (such as LPR) to the InfoPrint ProcessDirector LPD receiver
- Manage print queues
- Track the production process from receipt of the print file to final delivery
- Use a file viewer to find the pages of AFP and PDF jobs that need to be reprinted
- Interact with other programs, such as:
 - Third-party applications
 - User-written applications

New platforms

InfoPrint ProcessDirector will now be supported on the Microsoft Windows platforms:

- Windows 2003 Server, 64-bit
- Windows 2008 Server, 64-bit

Latest service pack is required for each operating system.

New Command Center feature

The Command Center feature can simplify complex environments and multiple sites to provide a combined view of all jobs and printers across multiple InfoPrint ProcessDirector primary servers for maximum productivity. Identify bottlenecks and move work from one site to another to help better manage deadlines and asset utilization.

Updated database

InfoPrint ProcessDirector includes embedded IBM® DB2® Enterprise Server Edition 9.7 for use by InfoPrint ProcessDirector program only.

Publications

The InfoPrint ProcessDirector for Windows Publications CD, GK4T-4107 contains the following publications:

- InfoPrint ProcessDirector for Windows: Planning and Installing, G550-1365
- InfoPrint ProcessDirector: Integrating with Other Applications, S550-1069
- InfoPrint Font Summary, G550-1140
- InfoPrint ProcessDirector: License Information, G550-1043

In addition, the CD contains InfoPrint ProcessDirector for Windows Information Center.

The Manufacturing Optimization feature also includes this publication on its CD:

- InfoPrint ProcessDirector: Installing and Configuring the Manufacturing Optimization Feature, G550-1070

Language support

InfoPrint ProcessDirector Base translations will be available in the following languages on November 18, 2010:

- French, German, Italian, Japanese, Russian, Spanish, Simplified Chinese, Traditional Chinese

Translations for InfoPrint ProcessDirector features will be available in the following languages on November 18, 2010:

- French, German, Italian, Japanese, Russian, Spanish

Customer Responsibilities

The customer is responsible for installing, configuring, maintaining and using the InfoPrint ProcessDirector™ according to documented procedures, and for using the product in accordance with the InfoPrint International Product License Agreement (IPLA), which can be found at this Web link:

http://www.infoprint.com/internet/wwsites.nsf/vwwebpublished/sm_warrantyhome_us

Additional customer responsibilities can be found in the Software Support Handbook under your responsibilities at this Web Link:

[http://www.infoprint.com/internet/comnelit.nsf/Files/Software_Support_Handbook/\\$File/Software_Support_Handbook.pdf](http://www.infoprint.com/internet/comnelit.nsf/Files/Software_Support_Handbook/$File/Software_Support_Handbook.pdf)

Accessibility

InfoPrint ProcessDirector has the following capabilities for vision-impaired users:

- Can be operated using only the keyboard
- Communicates all information without color
- Supports interfaces commonly used by screen magnifiers
- Supports interfaces commonly used by screen readers
- Provides documentation in an accessible format

InfoPrint ProcessDirector allows for users with mobility impairments or limited hand use to be operated using only the keyboard.

Technical Information

Software Requirements

InfoPrint ProcessDirector primary server can run under the following:

- Windows Server 2003 (64-bit) R2 or later
- Windows Server 2008 (64-bit) R1 or later

InfoPrint ProcessDirector uses a web browser to access and display the user interface. You can access the interface from the system where the primary server is installed, or from any Linux or Microsoft Windows system running a supported web browser. The supported browser versions for accessing IPPD on a client system are as follows:

- Microsoft Internet Explorer 6.x (Windows XP only)
- Microsoft Internet Explorer 7
- Mozilla Firefox 2.0.0.9, or later

InfoPrint ProcessDirector has a Web-based viewer that displays AFP or PDF files to assist you in selecting pages for reprinting. This viewer requires Adobe Acrobat Reader 7.0, or later.

InfoPrint ProcessDirector can receive jobs for processing from the Job Entry Subsystem (JES) spool on a IBM z/OS host using either the Download for z/OS or AFP Download Plus optional feature of IBM Print Services Facility for z/OS V4.1 (5655-M32). InfoPrint ProcessDirector can also process jobs using any file copying method (such as FTP, SCP) that can send files to a hot folder or any method that uses the LPD protocol for file transmission.

The program's specifications and specified operating environment information may be found in documentation accompanying the program, if available, such as a README file, or other information published by IBM, such as an announcement letter.

Documentation and other program content may be supplied only in the English language.

Limitations

- InfoPrint workgroup printers have not been tested with this release of InfoPrint ProcessDirector.

Hardware Requirements

A minimum configuration for InfoPrint ProcessDirector Windows V2.1.0 is a server with:

- Windows Server 2003 (64-bit) or
- Windows Server 2008 (64-bit)
- One or more 2.8 GHz, or faster, processors
- DVD-ROM device
- 4 GB or more RAM (12 GB RAM required for inserter or manufacturing optimization features)
- Display with minimum resolution of 1024 x 768
- Connectivity to the LAN

The following printers are supported by InfoPrint ProcessDirector:

- InfoPrint 2090ES Printer
- InfoPrint 2105ES Printer
- InfoPrint 2190 Printer
- InfoPrint 2210 Printer
- InfoPrint 2235 Printer
- InfoPrint 4000 Printer
- InfoPrint 4100 Printer
- InfoPrint 5000 Printer
- InfoPrint 75
- InfoPrint 100
- InfoPrint EMP156
- InfoPrint Pro 907
- InfoPrint C900 and C900AFP
- InfoPrint 907EX
- InfoPrint 1107 and 1107EX
- InfoPrint 1357 and 1357EX
- InfoPrint SP8200

Terms and Conditions

The information provided in this announcement letter is for reference and

convenience purposes only. The terms and conditions that govern any transaction with InfoPrint Solutions Company are contained in the applicable contract documents such as the International Program License Agreement, and the Agreement for Acquisition of Software Maintenance.

Licensing

InfoPrint Solutions Company International Program License Agreement including the License Information document and Proof of Entitlement (PoE) govern your use of the program. PoEs are required for all authorized use.

This software license includes Software Subscription and Support (also referred to as Software Maintenance).

License Information form number

The program's License Information will be available for review on the InfoPrint Solutions Company Web site:

<http://www.infoprint.com/licenses>

Maintenance Service Offerings

InfoPrint Solutions Company includes one year of Software Subscription and Support with the initial license acquisition of each program acquired. The software maintenance agreement does not require customer signatures.

While covered under the terms of the software maintenance agreement, InfoPrint Solutions Company provides you assistance for your routine, short-duration installation, usage (how to) questions, as well as code defect support and access to PTF updates, releases, and versions of the program.

InfoPrint Solutions Company provides assistance via telephone and, if available, electronic access, only to your Information Systems (IS) technical support personnel during normal business hours (published prime shift hours) of your InfoPrint Solutions Company support center. This assistance is not available to your end users. InfoPrint Solutions Company provides Severity 1 assistance 24 hours a day, every day of the year. For additional details, consult the InfoPrint website at:

http://www.infoprint.com/internet/wwsites.nsf/vwebpublished/sm_contracthome_us

Software maintenance does not include assistance for the design and development of applications, program modifications, print data-streams; your use of programs in other than their specified supported operating environment, or failures caused by products for which InfoPrint Solutions Company is not responsible under this agreement.

The InfoPrint ProcessDirector is covered by the Agreement for Acquisition of Software Maintenance. This agreement applies for subscription and support (also referred to as software maintenance), when purchased with the software product or as a subsequent renewal of software maintenance.

Limited Warranty

InfoPrint Solutions Company warrants that when the program is used in the specified operating environment, it will conform to its specifications. The warranty applies only to the unmodified portion of the program. InfoPrint Solutions Company does not warrant uninterrupted or error-free operation of the program or that InfoPrint Solutions Company will correct all program defects. You are responsible for the results obtained from the use of the program. InfoPrint Solutions Company may provide you with access to databases containing information on known program defects, defect corrections, restrictions, and bypasses at no additional charge. Consult the InfoPrint Solutions Company Software Support Handbook for further information at

[http://www.infoprint.com/internet/comnelit.nsf/Files/Software_Support_Handbook/\\$File/Software_Support_Handbook.pdf](http://www.infoprint.com/internet/comnelit.nsf/Files/Software_Support_Handbook/$File/Software_Support_Handbook.pdf)

InfoPrint Solutions Company will maintain this information for at least one year after the original licensee acquires the program (warranty period).

Money-back Guarantee: If for any reason you are dissatisfied with the program and you are the original licensee, you may obtain a refund of the amount you paid for it; if within 30 days of your invoice date you return the program and invoice or a copy thereof to the party from whom you obtained it. If you download the program, you may contact the party from whom you acquired it for instructions on how to obtain the refund.
