
InfoPrint Font Collection (5639-AFP) V3.6

Overview and Description

Ricoh announces an update to the WorldType fonts for the InfoPrint Font Collection (5639-AFP).

Six new Extended xB Chinese fonts are being added to the InfoPrint Font Collection to enhance the range of graphic capabilities for the current Chinese fonts. The Extended xB, fonts will complement the existing Simplified and Traditional Chinese fonts by adding Song and Hei ideographs from the Unicode Supplemental Ideographic Plane.

New Simplified Chinese fonts with Song ideographs:

- WT SerifDuo SC xB
- WT Serif SC xB

New Traditional Chinese Taiwan Sans fonts with Hei ideographs:

- WT Sans TW xB
- WT SansDuo TW xB

New Traditional Chinese Taiwan Serif fonts with Song ideographs:

- WT Serif TW xB
- WT SerifDuo TW xB

At-a-glance

InfoPrint Font Collection can help you

- Maintain consistency with legacy AFP applications by providing these font sets:
 - AFP Raster fonts in 240 and 300 dots per inch and commonly used AFP typefaces
 - AFP Outline fonts in commonly used AFP typefaces
 - AFP Classic fonts provided in the TrueType/OpenType format
 - AFP Asian Classic fonts provided in the TrueType/OpenType format
- Begin to use industry standard TrueType/OpenType font technology with a starter set of fonts including
 - WorldType Sans
 - WorldType Sans Duo
 - WorldType Serif
 - WorldType Serif Duo
- Easily globalize applications for printing in multiple languages with a single font using Unicode data format and the WorldType fonts
- Migrate to the new IS/3 AFP architecture by utilizing the AFP Classics and Asian Classics TrueType/OpenType font set

Highlights

- Control the appearance of business communications
- Enhance readability of business documents to increase impact and accessibility
- Draw attention to specific items, create emphasis, and improve readers' responsiveness to business communications
- Apply industry-standard TrueType/OpenType font technology to support Unicode data for globalization of applications with a single font
- Improve print quality on high-resolution printers by using Advanced Function Presentation (AFP) or TrueType/OpenType outline fonts instead of raster fonts
- Provides a migration path to the new AFP IS/3 architecture.

Technical Information

Operating Environments

AIX®, Windows®, or Linux®

Software Requirements

InfoPrint Font Collection can be installed and used on any AIX®, Windows®, or Linux® system platform supported by current releases of InfoPrint Manager and RICOH ProcessDirector. It can also be installed on ASCII systems used for document composition, where the InfoPrint Font character set metrics are needed for document formatting.

Hardware Requirements

InfoPrint Font Collection can be installed on systems running InfoPrint Manager or RICOH ProcessDirector. It can also be installed on systems used for document composition where the InfoPrint Font character set metrics are needed for document formatting.

Terms and Conditions

The information provided in this announcement letter is for reference and convenience purposes only. The terms and conditions that govern any transaction with Ricoh are contained in the applicable contract documents, such as the RICOH Software License Agreement and the RICOH Software Maintenance Agreement for Production Printing Software.

Licensing

The RICOH Software License Agreement governs your use of the program. These programs have a One-time-charge (OTC) for use of the program, and an annual or multi-year renewable charge for ongoing support, which includes telephone assistance, as well as access to updates and new releases of the program as long as support is in effect.

Maintenance Service Offerings

InfoPrint Manager is covered by the RICOH Software Maintenance Agreement for Production Printing Software. This agreement applies for subscription and support (also referred to as software maintenance) when purchased with the software product or as a subsequent renewal of software maintenance. The software maintenance agreement does not require customer signatures.

While your software maintenance is in effect, Ricoh provides assistance for routine, short-duration installation and usage (how to) questions and code-related questions. Ricoh provides telephone assistance, and if available, electronic access, only to your Information Systems (IS) technical support personnel during normal business hours (published prime shift hours) of the Ricoh support center. This assistance is not available to end users. Ricoh provides Severity 1 assistance 24 hours a day, every day of the year. For additional details, consult the Ricoh website at:

<http://rpp.ricoh-usa.com>

Software maintenance does not include assistance for the design and development of applications, your use of programs in other than their specified supported operating environment, or failures caused by products for which Ricoh is not responsible under this agreement.

Limited Warranty

InfoPrint Font Collection is warranted as stated in the RICOH Software License Agreement.

Ordering Information

All five InfoPrint Font Collection features may be ordered individually. To order:

- Select one or more optional items
- Select desired maintenance term (1 or 3 years)

Marketing channels

Ricoh Sales Specialists

Warranty Period

The program is warranted for 90 days as stated in the RICOH Software License Agreement.
