SYMPTOM/DESCRIPTION – 4.3.2 Release

CAUSE – New product release

SOLUTION/DETAILS

The 4.3.2 release is a new release and a follow on to the 4.2.0 and 4.2.1 releases from 2017 and the 4.3.0 release from May 2018. This release now includes all supported languages including Japanese.

Important Note! - A new license, free to customers on maintenance, is required to use version 4.3 of Prep. The installer strongly emphasizes this also. On upgrade, Prep will be non-functional without this new license so please make sure this is provided with the update.

The new function included in this release is:

<i>Feature</i>	<i>Benefit</i>
Print on covers, Fiery perfect bind support options, plus new spine content creation tool	New features make creating PB documents fast and easy. New spine editor allows developing that custom look for your documents.
New color and grayscale de-speckle and de-skew	Clean up color and grayscale scans for perfect hard copy reproduction.
Advanced Imposition included in base product for new users. Still available as an option to existing users.	Nearly limitless imposition features allow better use of media, with marks and barcode support for controlling finishing. These features provide better control over production, saving time and limiting mistakes.
PDF bookmark to chapter conversion	New feature that can detect bookmarks in PDF documents and optionally create chapters and tabs in Prep
Multiple stamps per page plus date stamp	Easily produce content such as movie tickets that require multiple copies of a stamp, or dated content
Tab and bleed edge tab themes	Easily reproduce work for consistent quality and minimize errors while being able to offer customers new options for their print products
Inserted page support anywhere in job	Operators can now create mixes of print and pre-printed content without limitations, allowing flexibility and cost savings such as color page inserts in a b/w job.

Model: <ul style="list-style-type: none">TotalFlow Prep D3E870 (RE)	Date: 08/24/2018	No.: Prep4.3.2
---	---------------------	----------------

New hardware support	The customer appreciates full, intelligent, hardware support integrated into everyday make ready options
----------------------	--

- Updated Readme and About Box on UI
- The .iso files include full installers and documentation.

SIGNIFICANT FIELD ISSUES ADDRESSED

- An issue where Prep would become unresponsive over time (referred to as “gray screen”) has been addressed.
